

## INDIAN SOCIETY OF PERIODONTOLOGY

---

Dr. Lalit Kumar Mathur,  
M.D.S., F.I.C.D., F.P.F.A.  
PRESIDENT

I send you my heartiest congratulations on the arrival of the second issue of your journal “International Journal of Oral and Maxillofacial Pathology”. I am indeed glad to know that the scientific contents of this journal will be extremely useful to the professionals and post graduate students to update their knowledge with the recent concepts in the field of Oral Pathology as well as Periodontology.

Pathology is in a “golden period”, by taking up this initiative, the team of IJOMP seems to promote the much required stress on a proper histopathologic diagnosis and the ways to accomplish this through the various articles published in this journal. Such changes are also leading to a greater emphasis on interdisciplinary research in the field of Dentistry.

I believe this journal shall pave the way for a genuine exchange of knowledge amongst those inquisitive to seek.

“The great thing in the world is not so much where we stand, as in what direction we are moving.” I wish the team at IJOMP a great success in this venture and see some more milestones on your journey.

Principal, Professor & Head,
